**Ages 5-12 (for Homeschooled and Virtually Educated Students)**

The Pittsburgh Zoo & PPG Aquarium is pleased to offer a special opportunity to learn about animals, conservation, and environmental issues through interactive lessons in inquiry-based classes. Classes will include animal presentations, touch tables with biofacts, and special tours. Students will be grouped

in different classrooms according to age. If a parent is attending with a child, younger siblings and infants will not be permitted in the classroom. When registering for an age group, you are registering for all four days in the semester. Parents will receive a lesson plan of each class for their records. The child will receive a Certificate of Participation at the conclusion of the 4th class.

**Ages 5&6**

**What's That Habitat**

Life in the wild is all about survival! Learn how animals use their looks, movement, senses, and other unique characteristics to find food and stay safe.

**Ages 7-9**

**Vertebrate Variety**

Students in these classes will learn the distinguishing characteristics of the five vertebrate groups- fish, amphibians, reptiles, mammals, and birds.

**Ages 10-12**

**Working Wild**

Students will explore the careers available at the Zoo. Emphasis will be placed on animal related careers such as zookeepers, veterinarians, and researchers.
