

# WILD EARTH DAY DISCOVERY STATIONS

A CELEBRATION OF WILDLIFE & CONSERVATION

PITTSBURGH ZOO  
& PPG AQUARIUM

## Red Panda Viewing

Focus: Endangered species

Examine tiger fur, an elephant tusk, and a rhino horn while learning about endangered species.

## Tropical Forest Complex

Focus: Gorilla conservation and identifying individuals

Learn how to identify each member of the Zoo's gorilla troop and get an inside look at their unique personalities. Get insight on how wild gorillas benefit when we recycle cell phones and purchase sustainable palm oil.

## The Islands and Working Wild

Focus: Zoo Conservation Projects

Explore the Islands' animal exhibits featuring siamangs, warty pigs, and clouded leopards. Stop by the Working Wild interactive classroom where you can find out about worldwide conservation projects supported by the Zoo and meet some touchable animals. Don't forget your camera!

## Water's Edge Event Space

Focus: Polar Bear Conservation

Play the interactive "Don't Break the Ice" game that features a polar bear who needs your help to stay alive in the Arctic. Discover touchable polar bear biofacts including real fur and teeth. Measure your height against a life-sized polar bear. Meet Project Polar Bear Team *Osborne Polar Protectors* from 10AM to noon.

## Animal Feedings and Demonstrations

Kids Kingdom: 11AM – River otter feeding

Kids Kingdom: 11:30AM – Sea lion demonstration

Water's Edge: 12:30PM – Sea otter feeding

Aquarium: 12:30PM – Meet the shark keeper  
(Open Ocean Tank, upper level)

Tropical Forest: 1PM – Gorilla feeding (*weather dependent*)

## Answer the Call to Recycle

Turn old electronics into cash for Zoo conservation projects with your students by collecting used handheld electronics including cell phones and handheld games. Bring collected items to the Zoo on Wild Earth Day and the school that donates the most phones will receive a special painting made just for you by an elephant, sea lion, or penguin.
