## ***Why It Matters***

The Pittsburgh Zoo & PPG Aquarium is one of only six zoo and aquarium facilities in the United States. Ranked as a **Best Zoo for Kids** by *Parents Magazine* for the second time, the Pittsburgh Zoo is the ultimate family destination.

The Zoo's 77 acres house more than 9,000 animals that represent 900 species and include 24 threatened or endangered animals. Each area of the Zoo is carefully created to ensure the animals' environments are similar to their native habitats – from the mountains of Asia, to the jungles of Africa.

Becoming a **partner** with the Pittsburgh Zoo is an excellent way for your organization to reach our **one million annual guests**, while also making a vital contribution to species survival and the quality of life in our region.
